FIREWORKS
Think Safe

COVID-19 restrictions mean major firework displays may be cancelled this year. If you are arranging a private display for the first time, keep these guidelines in mind:

Only buy from licensed sellers
Not unknown retailers on social media.

Look out for a CE Mark
And check that they have English instructions.

Check the category
Only 2F or 3F fireworks are suitable for home use. Don't use 4F fireworks.

Follow the Instructions
Don't go back to a firework. Leave it overnight then put it in a bucket of water.

Keep them away from children and pets
Children can be seriously hurt.
NEVER let them handle fireworks.

Be considerate
Warn your neighbours, stick to celebration dates and stay within curfew hours.
